WORK EXPERIENCE

MiniOrange Pvt . Ltd .

July/2022–July/2023

Software Engineer (*Full Stack Developer*)

Pune, Maharashtra

- Developed a **Two-Factor Authentication (2FA/MFA)** security plugin for Magento CMS, enabling OTP-based and app-based authentication to enhance access security.
- Built a **Social Login plugin** for Magento, integrating Google, Facebook, Discord, and other providers using secure authentication workflows.
- Optimized and maintained **OAuth 2.0** and **SAML 2.0** based SSO plugins, including bug fixes and performance improvements for Azure AD, Okta, and other IdPs.
- Delivered custom authentication enhancements by working closely with customers to meet application-specific security and business requirements.
- Collaborated with cross-functional teams to update technical documentation, configuration guides, and product collateral for secure plugin releases.

PROJECTS

AUTOLISP Programming - ACKERMAN Geometry Generator (AUTOCAD)

Developed an AutoLISP automation tool to generate Ackerman steering geometry, reducing manual design time by nearly 20 hours and improving design accuracy.

Data Acquisition System - Electronics

Built a sensor-based data acquisition system using Arduino UNO, enabling real-time measurement and logging of vehicle dynamics data for analysis.

SKILLS

Languages and core : C, C++, PHP , HTML, CSS, AutoLISP , Data Structure and Algorithms, OOPS.

Software and Tools : Arduino UNO, CATIA V5, AutoCAD, Keyshot.

EDUCATION

College of Engineering Pune-(COEP)

2018–2022

B.Tech in Mechanical Engineering | **8.01/10** (CGPA)

Pune, Maharashtra

CLASS XII- Zulal Bhilajirao Patil College, Dhule

2016–2018

Specialization in Electronics | **85.54** %

Dhule, Maharashtra

CLASS X - Jaihind High School, Dhule

2016

95.00 %

Dhule, Maharashtra

EXTRA-CURRICULAR ACTIVITY

Team Octane Racing | Formula Bharat

Designed and optimized the steering subsystem of a Formula Student car, achieving 8 Percentage weight reduction and 5% improvement in turning radius through efficient design and teamwork.

POSITION OF RESPONSIBILITY

Served as Subsystem **Head** (Steering and Data Acquisition) at **Team Octane Racing** , leading design, implementation, and coordination for Formula Bharat 2020
