

Vinay Bhamre

FullStack Engineer

+91 8237059592 | vinay_bhamre@proton.me | linkedin.com/in/vinay-bhamre
github.com/vinaybhamre | Nagpur, Maharashtra

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3, Markdown, JSON

Frontend: React.js, React Router, Redux Toolkit, TailwindCSS, React Hook Form, Axios, React Query

Backend: Node.js, Express.js, REST APIs, Socket.IO, Zod, JWT

Database & ORM: MongoDB, PostgreSQL, Prisma, Mongoose

Tools & DevOps: Git, GitHub, VS Code, Postman, Docker, Chrome DevTools

Additional Exposure: SQL, Python, SCSS/SASS, Next.js, Framer Motion, Vite, Passport.js, OAuth 2.0, TypeORM, Bcrypt, Supabase, Firebase, ESLint, Prettier

Projects

Appointly – Scheduling Web App | *React.js, TypeScript, Node.js, Express, PostgreSQL, Supabase, TypeORM*

- Built a full-featured scheduling platform like Calendly with JWT, calendar sync, and Google Meet integration.
- Enabled users to define availability, generate unique links, and manage meetings with timezone-aware scheduling.
- Used Supabase PostgreSQL with TypeORM and integrated Google APIs for seamless event creation and email notifications.

Teamtrackr – Project Management Tool | *React.js, Node.js, Express.js, MongoDB, Zod, React Query*

- Built a fullstack project management tool with role-based access control (Owner, Admin, Member) using MERN stack.
- Implemented CRUD operations for Workspaces, Projects, and Tasks with email/password and Google OAuth auth.
- Designed scalable REST APIs and optimized MongoDB schema using Mongoose for user and workspace management.

Drawin – Online Canvas Tool | *React.js, TypeScript, Node.js, Express.js, Socket.IO*

- Created a real-time collaborative drawing board using WebSockets with pencil, shapes, image upload, and undo/redo.
- Designed intuitive UI with color pickers, line width, and solo or multi-user modes.
- Focused on creative versatility and ease of use for both casual and serious users.

Experience

Replus Engitech Pvt Ltd

July 2024 – Present

Fullstack Developer

- Developed a battery sizing tool that reduced energy cost estimation time by 40% and enabled clients to analyze 25-year cost projections, resulting in significant cost savings.
- Optimized energy calculation algorithms, improving backend performance by 30%.
- Automated workflow processes, reducing manual efforts by 50%.

Independent Web Developer

September 2023 – July 2024

Freelance PHP & WordPress Developer

- Built and delivered 2 appointment booking and eCommerce sites (WordPress, Shopify), helping clients streamline online bookings and sales.
- Developed custom PHP snippets and theme modifications for WordPress, gaining foundational PHP experience.
- Collaborated with clients to gather requirements and provide tailored solutions with responsive UI.
- Enhanced website launch speed by 30% by optimizing frontend technologies.

Ambee

February 2023 – August 2023

Frontend Developer

- Led frontend development for Ambee Webhooks and C6 Emission tools with 10,000+ daily API calls.
- Redesigned user dashboards, increasing user engagement by 18%.
- Improved form load times by 60% and reduced support tickets with intuitive UI updates.

Education

Bachelor of Engineering in Information Technology

2016 – 2020

Priyadarshini Institute of Engineering and Technology
